DETAILED ACTION

Drawings

1. In view of the amendment filed on 28 April 2005, the Examiner withdraws objections to the drawings from the previous Office Action.

Specification

2. In view of the amendment filed on 28 April 2005, the Examiner withdraws objections to the specification from the previous Office Action.

Allowable Subject Matter

3. Claims 1-13 and 15-22 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. Regarding claim 1, prior art fails to disclose an apparatus with a data ready indicator between different clock domains including a first circuit configured to present a first data signal and a first indicator signal where the first circuit comprises a register circuit configured to complement the first indicator signal in response to a gated version of the first clock signal.
6. Regarding claim 15, prior art fails to disclose a method of indicating data synchronized from a first logic domain to a second logic domain where presenting the first data and indicator signal is done in response to a gated clock signal and where the indicator signal is complement in response to the gated clock signal.
7. Regarding claim 22, prior art fails to disclose an apparatus comprising: a first circuit configured to present a first data signal and a first indicator signal in response to a first clock signal and an enable signal; and a second circuit configured to present a second data signal and a second indicator signal in response to said first data signal, said first indicator signal and a
